

Quality Seed Suppliers for a Thriving Garden or Farm

Using quality seeds is essential to ensure higher germination rate, plant vigor, and yields. Quality seeds have genetic purity and environmental adaptability, leading to robust, consistent, and prolific plants. Though they may come at a higher initial cost, high quality seeds save money and time in the long run by reducing the need for extra inputs like fertilizers and pesticides, as well as labor, to manage poor plant health.

JOHNNY'S SELECTED SEEDS

www.johnnyseeds.com

For over 50 years Johnny's has been providing high quality non-gmo organic seeds that exceed federal minimum requirements for germination rates, pathogen testing, and traceability. Johnny's website provides a wealth of information about different cultivars, growing recommendations, instructional videos, as well as tools and supplies. Johnny's is a popular seed source for many farmers and market gardeners.

BAKER CREEK HEIRLOOM SEEDS

www.rareseeds.com

Baker Creek's mission is to provide seeds of a sustainable food supply for everyone and keep heirloom varieties alive for future generations. Baker's Creek has a dazzling array of rare and popular vegetable, fruit, herb, and flower seeds from around the world. Their website and catalog is so beautiful it's a joy to sift through the pages. All seeds they sell can be saved and traded, and they encourage everyone to save their own seeds.

HIGH MOWING ORGANIC SEEDS

www.highmowingseeds.com

High Mowing offers 100% certified organic, non-gmo seed with robust genetics and modern disease resistance that is bred to perform best in organic cropping systems. They believe in building "a greener, more just and community-supported world, one seed at a time". High Mowing also offers seed collections that make great gifts including the *Container Garden Organic Seed Collection* and *Garden Starter Organic Seed Collection*.

BOTANICAL INTERESTS

www.botanicalinterests.com

Botanical Interests provides vegetable, herb, and flower seeds as well as garden products -- all beautifully packaged. This company's journey is inspiring: "Nurturing seeds in the garden slows us down to reconnect to nature and earth, develops bonds in a community, and creates family traditions and memories." Check out their articles, blogs, and ebooks like *How to Start Seeds: A Complete Guide*, as well as their lovely gift collections.

SEED SAVERS EXCHANGE

www.seedsavers.org

Founded in 1975, Seed Savers Exchange is a non-profit that "stewards America's culturally diverse and endangered garden and food crop legacy for present and future generations". They provide biodiverse seeds including vegetables, fruits, grains, herbs, and flowers, along with informational articles and virtual and in-person educational events through the year.

RENEE'S GARDEN

www.reneesgarden.com

Renee Shepherd only offers non-gmo varieties that have great flavor, are easy to care for, and perform well -- and are tailored to home gardeners. Renee's Garden sources high quality seeds from around the world that are evaluated in their test gardens in different climatic zones. You can find vegetable, fruit, herb, and flower seeds as well as mushroom growing kits, kitchen supplies, art prints, and more. Sign up for Renee's monthly newsletter for great gardening ideas, recipes, and stories.
